Urgent Care

Skip the waiting room and see a doctor virtually for non-urgent conditions like pink eye, sinus infections, rashes, strep throat, and UTIs. A doctor can diagnose, treat, and prescribe medication for common illnesses and problems.

Behavioral Health Therapy

If seeing a behavioral health specialist is more comfortable for you virtually, or if you can't connect with your regular provider, Well360 Virtual Health can help you schedule an appointment for help with concerns like anxiety, depression, or insomnia.

Psychiatry

Easily schedule a virtual appointment with a psychiatrist for prescription medications, psychiatric assessments, or help with any mental health needs.

Register on **Well360VirtualHealth.com** or log in if you are already using the Amwell® site. Once you're logged in, you will be asked to update your password and your medical history. A heads-up on cost sharing

Cost sharing will apply for virtual health. For urgent care, take a look at your Telemedicine Service benefit to see what your cost will be. For behavioral health therapy and psychiatry cost sharing, please see your Outpatient Mental Health benefit.
