Getting a flu vaccine this fall is important to help protect yourself, your loved ones, and your community against flu illness, hospitalization, and death. For those who have not yet received a COVID-19 vaccination or booster, sites like pharmacies that offer COVID-19 vaccinations can administer the flu vaccine and the COVID-19 vaccine/booster. State of Delaware Group Health Insurance Plan members can obtain flu shots and COVID-19 shots at no cost when using their Highmark Delaware or Aetna health plan or CVS Caremark prescription plan at local participating network pharmacies, including Walgreens, Rite Aid, and CVS Pharmacy. Contact your local pharmacy before going, as an appointment may be recommended or required to receive vaccines.

Check [flu.delaware.gov](http://flu.delaware.gov) regularly for updates from the Division of Public Health (DPH) on the 2022-2023 flu season in Delaware. Employees and their dependents (age limits may apply) without insurance or those on Medicaid or Medicare may receive vaccines for flu and COVID-19 at [Public Health Clinics](http://flu.delaware.gov). While DPH no longer holds mass community flu clinics, it is offering flu vaccines at community-based locations where the DPH mobile units also provide additional health services.

Visit the CDC Website for more information on the [flu](http://flu.delaware.gov) and [COVID-19](http://flu.delaware.gov).
