How the Aetna CDH Gold Plan with HRA Fund works

You get a health plan for coverage — and a fund to help pay for it

The Aetna CDH Gold Plan is designed with your needs in mind:

- You can see any doctor you want, in- or out-of-network
- Preventive care is covered at 100 percent
- The State of Delaware provides you with a HRA Fund to help cover the deductible
- Health Reimbursement Account dollars remain with members that remain in the CDH Gold plan

There are three parts to your plan — the HRA Fund, the deductible and the health plan.

Here's how they work:

1. The HRA Fund

Each year, the State of Delaware will fund a health reimbursement account —the HRA fund — for you.

You can use the HRA dollars to pay eligible out-of-pocket health care costs.

If you don't use the whole fund in one year, no worries. Unused amounts will roll over to the next year. However, if you change employers or leave the Aetna CDH Gold Plan, you can't take the HRA fund with you.

2. Your Deductible

This is an amount you must pay for eligible expenses. Once you pay the full deductible, your health plan begins to pay benefits.

As you use the fund, the payments count toward your deductible. So the fund helps pay your deductible. That means you have less to pay out of your own pocket!

And if you've been in the CDH Gold plan for over a year, the HRA fund can grow as unused funds will roll over to the next year. It might build up enough to pay your full deductible.

3. Your Health Plan

Once you meet your deductible, your health plan pays its share for eligible expenses. You pay a smaller share of these costs from your own pocket.

CDH Gold Plan: choose from three ways to get health care

1. Visit your PCP

You don't have to pick a primary care physician (PCP). But there are advantages when you do. Your PCP can develop a better understanding of your health needs, and that can help you make important medical decisions.

2. Visit any network doctor or hospital for care

No referrals are needed and you pay less out of pocket.

Your doctor will:

- Provide routine and preventive care and treat you for some illnesses and injuries
- Get approval from Aetna (called precertification) before providing some services
- File claims for you

3. The freedom to see licensed doctors and specialists out-of-network.

The Aetna CDH Gold Plan has a fund to help you pay for out-of-network medical expenses. But you may have to:

- Get your own approval before receiving some services by calling your Aetna One Advisor Team at **1-877-54-Aetna (1-877-542-3862) (TTY: 711)**.
- Meet the out-of-network annual deductible
- File your own claims
- Pay the difference between the amount paid by your health plan and the amount charged by your doctor

Your out-of-pocket costs are usually higher when you see a doctor who is not in the Aetna network. Find a provider near you at [MyAetnaNetwork.com](https://www.aetna.com/MyAetnaNetwork.com)

Pay attention to valuable features

You also get:

Preventive care

Preventive care is covered in full by the Aetna CDH Gold plan when received by an in-network provider. It doesn't count toward your deductible and nothing is paid from the fund. It includes:

- Routine exams and shots
- Wellness exams for children and adults
- Women's preventive services, including:
 - Prenatal Care
 - Breastfeeding Supplies
 - Well-woman Care
 - Contraceptive Coverage
 - Immunizations
- Select screenings
- Routine mammograms, including 3D mammograms
- Routine hearing exams

Out-of-pocket maximum

You're protected by a limit on how much you pay in a plan year. First, your out-of-pocket costs must reach this limit. After they do, your health plan covers your remaining eligible expenses at 100 percent for the rest of that plan year.

Remember to check your plan documents so you know your responsibilities.

Note: The HRA fund will be prorated for members who enroll or change their level of coverage (an example: from employee and spouse to family, etc.) mid-year, depending on the date of enrollment or change. However, members are responsible for the entire deductible for the plan year.

Manage your health care and health care spending

The following pages give examples of how the Aetna CDH Gold Plan works over a two-year period for both an individual and a family.

Aetna CDH Gold Plan with a HRA Fund: Employee-Only Plan

Here is an example of how the Aetna CDH Gold Plan with a HRA Fund works over two years.

This example is for an employee-only plan:

- You use in-network doctors and hospitals
- Preventive care is covered at 100 percent and does not count toward your deductible
- The State of Delaware contributes \$1,250 to the fund
- The Aetna CDH Gold Plan has a \$1,500 deductible

Year One

- You visit your doctor for a routine physical exam. The exam charge is \$100. The Aetna CDH Gold Plan covers preventive care at 100 percent. So, you pay nothing and nothing is paid from the HRA fund.
- Later in the year, you sprain your ankle. During the office visit, your doctor takes X-rays. Your total expense is \$300 — \$175 for the X-rays and \$125 for the office visit.
- If you have not yet met your deductible, you are responsible for paying that \$300. Under the Aetna CDH Gold Plan, this amount is paid in full out of the HRA fund. That means you pay nothing out of your own pocket, and the amount paid from the fund reduces your deductible. Your remaining deductible is \$1,200. You have no other health care expenses for the rest of the year.
- At the end of Year One, \$950 remains in the HRA fund. That amount will be rolled over to the next year if you remain enrolled in a CDH Gold Plan through the State of Delaware.

Example: Employee Only, Plan Year One

Here is the plan

The HRA fund: \$1,250

Health plan deductible: \$1,500

After deductible is met:

Health plan pays: 90% (In-network)

You pay: 10% (In-network)

A look at Year One

Total expenses: \$400

The HRA fund:

You start with: \$1,250

You use: \$300

Remaining HRA fund: \$950

Total amount paid by plan: \$100

Total amount paid by the HRA fund: \$300

Total amount you paid: \$0

HRA fund roll-over to the next plan year: \$950

Year Two

- Early in the year, you need surgery. The cost is \$9,200.
- You start the year with \$2,200 in the HRA fund. This includes \$1,250 from the State of Delaware for this year's HRA fund plus \$950 rolled over from last year's HRA fund. If you have not yet met your \$1,500 deductible, you must pay that \$1,500 out of your pocket first. This is paid from your HRA fund leaving a balance of \$700 in your HRA fund.
- Now that you've met your deductible, there is a balance of \$7,700 to pay for surgery.
- The health plan now begins to pay. You visited in-network doctors and facilities. So, your health plan pays 90 percent of the balance (\$6,930) and you are responsible for 10 percent (\$770). However, the HRA fund pays \$700 and you are responsible for \$70.
- At the end of Year Two, the fund balance is \$0. You'll start Year Three with a new HRA fund balance of \$1,250 if you remain in a CDH Gold Plan through the State of Delaware.

Example: Employee Only, Plan Year Two

A look at Year Two

Total expenses \$9,200

The HRA fund:

Year Two employer contribution: \$1,250

Amount rolled over from Year One: \$950

Year Two starting HRA fund balance: \$2,200

You use: \$1,500

Remaining expenses: \$7,700

Your deductible

Health plan deductible (Year Two): \$1,500

Amount paid from the HRA fund: \$1,500

Remaining balance of expenses: \$7,700

Amount you paid to meet the deductible: \$0

Remaining expenses: \$7,700

Your health plan

Amount paid by plan (90% of \$7,700): \$6,930

Balance due (10% of \$7,700): \$770

Amount paid by the HRA fund: \$700

Remaining expenses: \$0

Total amount paid by plan: \$6,930

Total amount paid by the HRA fund: \$2,200

Total amount you paid: \$70 (your share of the health costs)

Manage your health care and health care spending

Aetna CDH Gold Plan with a HRA Fund: Family Plan

Here is another example of how the Aetna CDH Gold Plan with a HRA Fund works over two years.

This example is for a family plan:

- Your family uses both in- and out-of-network doctors and hospitals
- Preventive care is covered at 100 percent and does not count toward your deductible
- The State of Delaware contributes \$2,500 to the HRA fund at the family level
- The Aetna CDH Gold Plan has a \$3,000 family deductible (the family deductible can be met by two or more family members, but no one individual is charged more than the individual \$1,500 limit)

Year One

- You visit an out-of-network specialist for an exam and testing. The charge is \$1,000.
- If you have not yet met your family deductible, you are responsible for paying that \$1,000. Under the Aetna CDH Gold Plan, this amount is paid in full out of the HRA fund. That means you pay nothing out of your own pocket, and the amount paid from the HRA fund reduces the family deductible. Your remaining family deductible is \$2,000.
- Later in the year, your spouse has surgery performed by an in-network doctor. The charge is \$1,000.
- Since your family deductible has not been met, you are responsible for paying that \$1,000. But again, under the Aetna CDH Gold Plan, this amount is paid in full out of the HRA fund and you pay nothing out of your own pocket. The amount

paid from the HRA fund reduces the family deductible. Your remaining family deductible is now \$1,000, and your remaining HRA fund balance is \$500.

- Your family has no other health care expenses for the rest of the year.
- At the end of Year One, \$500 remains in the HRA fund. That amount will be rolled over to the next year if you remain enrolled in a CDH Gold Plan through the State of Delaware.

Example: HRA Fund at the Family Level, Plan Year One

Here is the plan

The HRA fund: \$2,500

Health plan deductible: \$3,000

After deductible is met:

Health plan pays: 90% (In-network)
70% (Out-of-network)

You pay: 10% (In-network)
30% (Out-of-network)

A look at Year One

Total expenses: \$2,000

The HRA fund:

You start with: \$2,500

You use: \$2,000

Remaining HRA fund: \$500

Total amount paid by plan: \$0

Total amount paid by fund: \$2,000

Total amount you paid: \$0

HRA roll-over to next plan year: \$500

Year Two

- Your daughter has surgery performed by an in-network doctor at an in-network surgical facility. The charge is \$5,000.
- You start the year with \$3,000 in the HRA fund at the family level. This includes \$2,500 from the State of Delaware for this year plus \$500 rolled over from last year into your HRA fund.
- Your \$3,000 family deductible has not been met yet; however, no one person must meet more than the \$1,500 individual deductible. Under the Aetna CDH Gold Plan, the HRA fund pays \$1,500 toward your family deductible, leaving a balance of \$1,500 remaining in the HRA fund.
- Now that your daughter's portion of the family deductible has been met, there is a balance of \$3,500 remaining for the surgery charge.
- The health plan now begins to pay. Your daughter visited an in-network doctor and facility, so, your health plan pays 90 percent of the balance (\$3,150) and you pay 10 percent (\$350). Under the Aetna CDH Gold Plan, your amount (\$350) is paid in full out of the HRA fund.
- Your family has no other health care expenses for the rest of the year.
- At the end of Year Two, the HRA fund balance is \$1,150. You'll start Year Three with a new HRA fund balance of \$3,650 if you remain enrolled in a CDH Gold Plan through the State of Delaware.

Example: HRA Fund at the Family Level, Plan Year Two

A look at Year Two

Total expenses: \$5,000

The HRA fund:

Year Two employer contribution: \$2,500

Amount rolled over from Year One: \$500

Year Two starting fund HRA balance: \$3,000

You use: \$1,500

Remaining expenses: \$3,500

Your deductible:

Health plan family deductible (Year Two): \$3,000

Amount paid from the fund: \$1,500

Remaining balance of expenses: \$3,500

Amount you paid to meet the deductible: \$0

Remaining expenses: \$3,500

Your health plan:

Amount paid by plan (90% of \$3,500): \$3,150

Balance due (10% of \$3,500): \$350

Amount paid by HRA fund: \$350

Remaining expenses: \$0

Total amount paid by plan: \$3,150

Total amount paid by HRA fund: \$1,850

Total amount you paid: \$0

HRA roll-over to next plan year \$1,150

How the Aetna HMO Plan works

The Aetna HMO plan lets you work with a primary care physician (PCP). Your PCP will work one-on-one with you to understand your needs. If you need care from another doctor, your PCP will give you a referral. Nothing is better than personal care!

Step #1

Choose a Primary Care Physician (PCP)

- You must choose a PCP and see HMO in-network doctors to receive benefits through this plan.
- Your PCP is the doctor you go to first. He or she will help you learn about your health and how to manage it.
- You can choose any PCP from a strong local Aetna HMO network — it's your choice. Plus, you'll feel good knowing that anyone you choose meets our standards.
- Choosing a doctor is a personal decision — that's why each member of your family can have his or her own PCP.
- You can change your PCP anytime. Just call Member Services at **1-877-542-3862 (TTY: 711)**. Or visit the secure Aetna member website at [Aetna.com](https://www.aetna.com)

Step #2

Visit your PCP for care

- Go to your PCP for checkups and whenever you are sick or hurt.
- Your PCP will help you decide if you need care from another doctor. If so, your PCP will give you a referral.
- For additional information about referrals visit: [DHR.Delaware.gov/benefits/medical/aetna/pcp.shtml](https://dhr.delaware.gov/benefits/medical/aetna/pcp.shtml)
- Sometimes you may need care that requires Aetna approval before you get it. Your PCP and other network doctors will get this approval for you.

Step #3

Pay your copay

- When you visit the doctor, you pay a copay. This is a flat dollar amount you pay during your visit.
- See the Summary of Benefits on page 14 for your covered services and copay amounts.

Pay attention to valuable features

You also get:

Preventive care

Preventive care is covered in full by the Aetna HMO Plan.

- Routine exams and shots
- Wellness exams for children and adults
- Women's preventative services, including:
 - Prenatal Care
 - Breastfeeding Supplies
 - Well-woman Care
 - Contraceptive Coverage
 - Immunizations
 - Select screenings
- Routine mammograms, including 3D mammograms
- Routine hearing exams

Out-of-pocket maximum

You're protected by a limit on how much you pay in a plan year. First, your out-of-pocket costs must reach this limit. After they do, your health plan covers your remaining eligible expenses at 100 percent for the rest of that plan year.

Remember to check your plan documents so you know your responsibilities.

Building a relationship with a PCP is a good idea. He or she will help you make informed decisions about your care.

Finding a PCP is simple!

With our custom online provider search directory for State of Delaware employees and pre-65 pensioners, you can look for a doctor by specialty and location. All the information you need is there — including maps and directions to the doctor's office. You can even look for doctors who speak

your language. Check out the provider search at [MyAetnaNetwork.com](https://www.aetna.com)

You can change your PCP at any time. You can change your designated PCP at any time by calling **1-877-54-Aetna (1-877-542-3862) (TTY: 711)**, or by logging in to the Aetna member website.

Aetna Enhanced Maternity Program[®]

Get the information and special support you need

With the Aetna Enhanced Maternity Program, you can count on us to support you throughout your entire pregnancy journey. The program is included in your Aetna[®] plan. So rest assured, you're getting support and resources at no extra cost to you.

Getting started is easy

- Enroll on your Aetna member website.
- Call us at **1-800-272-3531 (TTY: 711)** weekdays from 8 AM to 7 PM ET.
- You'll learn about what to expect before and after delivery, early labor symptoms, newborn care and more.

We can also:

- Offer you phone-based genetic counseling and screening, as well as convenient, confidential and cost-effective genetic testing
- Help you make informed decisions throughout your pregnancy
- Give you advice on lowering your risk for early labor
- Help you cope with postpartum depression

Extra help for at-risk pregnancies

Personalized nurse support

If you have a health condition or other risk that could affect your pregnancy, we can help. Our nurse case managers will work with you to manage or maybe even lower those risks.

Helping you deliver at the right time

In most cases, full-term babies have fewer health problems than preterm babies. So if you're at risk for early labor, we'll explain the signs and symptoms and help you lower those risks. We'll also talk about treatment options.

Visit the Maternity Support Center

This no-extra-cost resource is available through your member website and offers information about the maternity journey. Whether you're planning for baby, already pregnant or post-delivery, it's personalized for you and where you can find:

Pre-pregnancy checklists

Coverage details, like ultrasound costs

Breastfeeding and postpartum support

Baby-care tips
