Overview and Eligibility

(1) Why is telemedicine being offered?

House Bill 69 was passed by the legislature on May 14, 2015 and signed into law by the Governor on July 7, 2015, which calls for services already covered by a health plan to be paid for if using telemedicine. Billing for telemedicine services can begin January 1, 2016.

(2) When is the telemedicine service benefit available?

Telemedicine is available under the State of Delaware’s non-Medicare Health Plans effective January 1, 2016.

(3) Who is eligible to use the telemedicine service benefit?

Telemedicine is available to all members who are covered under a State of Delaware non-Medicare Health Plan.

(4) What telemedicine service benefits are covered under the State of Delaware non-Medicare (Highmark Delaware) health plans?

Highmark Delaware’s Virtual Acute Care Vendors

Americanwell (Amwell) is the telemedicine providers for acute care and is available 24/7/365. Members can be connected to doctors virtually (online) for acute care for minor illnesses and injuries when:

- Their primary care doctors' offices are closed;
- They're unable to get an appointment with their primary care doctors immediately; and/or
- They're away from home.

With Amwell, members can select a doctor from available physicians licensed in the state where the member is located. The majority of telemedicine visits through Amwell are done via video as this is the preferred method of delivery by the Amwell doctors; however, phone visits are available should a member not have video capability.

Highmark Delaware's Virtual Behavioral Health Vendors

Virtual Behavioral Health is available via Amwell for reliable and convenient therapy visits, which are scheduled video appointments, with trained and certified mental health providers. Local behavioral health providers may also be able to offer their services virtually; however, it's up to providers to choose to practice in this manner. Virtual Behavioral Health is here to help when your schedule makes seeing a mental health provider difficult, if providers aren't close by or if you are hesitant to seek care in person. **Important:** Please remember to use the professional counseling services available through the Employee Assistance Program (EAP)- ComPsych[®] Guidance Resources[®] where there is no cost for the first five visits, to help address behavioral health issues, prior to using Virtual Behavioral Health through your health care plan. Learn more about the EAP + Work/Life Program on [SBO's website](#).

Virtual Primary Care Provider Visit or Virtual Specialist Visit

Your doctor may elect to practice medicine via telemedicine. You must have an established relationship with the primary care provider or specialist. With Virtual Primary Care Provider Visits or Virtual Specialist Visits, you would be able to see your primary care provider or specialist for diagnosis and care by visiting with doctors via videoconferencing technology.

(5) Who are the doctors offered through Highmark Delaware's telemedicine vendors?

The doctors are U.S. board certified, licensed in the state you are located in at the time of the consultation and incorporate telemedicine into their day-to-day practice as way to provide people with convenient access to quality medical care. For example, if you contact a telemedicine vendor while in Delaware, you will be connected with a physician who is licensed in Delaware. Another example is, if you are in California and contact a telemedicine vendor, you will be connected with a physician who is licensed in California.

(6) What about member confidentiality when using telemedicine service benefits?

Telemedicine service benefits are subject to HIPAA confidentiality requirements as any other medical service.

(7) Is telemedicine a more affordable, convenient alternative to urgent care and emergency room visits?

Yes, telemedicine is an affordable, convenient alternative to urgent care and emergency room visits.
