SilverScript Formulary Basics

What is the SilverScript Formulary?
• A formulary is a list of covered drugs.
• It includes brand and generic drugs.
• It uses tiers to indicate your share of the cost.

Can the Formulary change?
• Most changes in the formulary happen on January 1.
• SilverScript follows Medicare rules in making any changes.
• We may add or remove drugs during the year, move them to different cost-sharing tiers, or add new restrictions.

What if my drug is not on the Formulary?
• Contact Customer Care first to ask if your drug is covered.
• SilverScript covers at least 2 drugs in the most commonly prescribed categories and classes.
• Ask us how to make an exception and cover your drug.

The additional coverage provided by State of Delaware covers certain prescription drugs not covered under Medicare Part D; these may not appear in your formulary.

If you have questions, please call the number on your member ID card or visit Caremark.com to use the online drug search tool.

Are there any restrictions on my drug coverage?
- Some covered drugs may have additional requirements or limits.
- You can find out if your drug has any additional requirements or limits by looking in the formulary.

<td>Some drugs have a limitation on the amount of the drug we will cover.</td>
<td>You’ll need to try certain drugs for your condition before we will cover another drug for that condition.</td>

Ask us how to make an exception and cover your drug by calling Customer Care at the number on your member ID card, or you can review your 2023 Evidence of Coverage.
