## FY23 Q3 Cost Analysis

*It is evident that the COVID-19 pandemic will have an impact on health care costs. We have used available information and reasonable estimation techniques to develop health care cost estimates for the GHIP that reflect the impact of COVID-19. However due to the high degree of uncertainty associated with this pandemic, results may vary from the estimates provided.*

**Plan performance dashboard - key observations for GHIP Active population: April 2022 - March 2023 (compared to April 2021 - March 2022)**

- The COVID-19 pandemic has had a significant impact on GHIP utilization and claims. Utilization of medical care continues to return to and/or exceed pre-pandemic levels varying by service category. The Merative plan performance dashboards highlight the following program trends:
  - Increases in well care and preventive visits: increase of 21.2% well child, increase of 7.5% preventive adult
  - Increase in screening rates, with breast cancer screenings up 8% over prior; all reported screening rates at or above benchmark; prevalence of osteoarthritis and diabetes continue to rise
  - 6.3% increase in inpatient admits; 10.8% increase in ER visits
  - 1.6% increase in Rx cost across all prescriptions and 4.1% increase in utilization of all prescriptions
  - Specialty medications now make up 48% of pharmacy spend; reduction in cost for specialty drugs offset by 15.3% increase in days supply

**Additional notes**

- Claims and expenses are reported on a paid basis
- FY23 budget rates increased by 8.67% over FY22 budget rates
- Paid claims and enrollment data based on reports from Aetna, Highmark, CVS, and ESI; costs include operating expenses
- Expenses are broken down into two categories:
  - ASO Fees: includes fees for vendor administration, COBRA administration, ACA-related (PCORI), Merative data analytics, EAP, and WTW consulting fees
  - Office Operational Expenses: includes expenses for items such as staff salaries, supplies, etc.
- Rx rebates and EGWP payments are shown based on the period to which offsets are attributable, rather than actual payment received in a given period
- No adjustments made to cost tracking for large claims as the State does not have stop loss insurance
- HRA dollars are assumed to be included in the reported claims
- Participating groups (such as University of DE) are included in the cost tracking, but are assumed to be 100% employee paid; as a result, reported net cost and cost share percentages may be skewed; participating group fees are included in premium contributions

<sup>1</sup> Capitation payments apply to HMO plan only

<sup>2</sup> Direct subsidy and catastrophic reinsurance prospective payments reflect actual payments received during quarter; CGDP estimated based on payment attributable to quarter; projected EGWP PMPM amounts provided by CVS Health

<sup>3</sup> Reflects estimated rebates attributable to FY23; prior quarters to be updated with actual FY23 rebates when received; estimated rebates based on WTW analysis of expected rebates under CVS contract effective July 2021

<sup>4</sup> Premium contributions include fees for participating non-State groups

<sup>5</sup> Total per employee per year (PEPY) and per member per year (PMPY) values include operational expenses; these expenses are excluded from medical and Rx PEPY/PMPY splits

<sup>6</sup> Participating groups are assumed to be 100% EE funded, and Medicare retirees are assumed to be fully subsidized

<sup>7</sup> WTW Budget based on revised FY23 Budget approved by SEBC 11/21/2022

<sup>8</sup> FY23 projected total program cost based on FY23 Q3 long-term projections presented to SEBC in May 2023

It is evident that the COVID-19 pandemic will have an impact on health care costs. We have used available information and reasonable estimation techniques to develop health care cost estimates for the GHIP that reflect the impact of COVID-19. However due to the high degree of uncertainty associated with this pandemic, results may vary from the estimates provided.

<sup>1</sup> Capitation payments apply to HMO plan only

<sup>2</sup> Direct subsidy and catastrophic reinsurance prospective payments reflect actual payments received during quarter; CGDP estimated based on payment attributable to quarter; projected EGWP PMPM amounts provided by CVS Health

<sup>3</sup> Reflects estimated rebates attributable to FY23; prior quarters to be updated with actual FY23 rebates when received; estimated rebates based on WTW analysis of expected rebates under CVS contract effective July 2021

<sup>4</sup> Premium contributions include fees for participating non-State groups

<sup>5</sup> Total per employee per year (PEPY) and per member per year (PMPY) values include operational expenses; these expenses are excluded from medical and Rx PEPY/PMPY splits

<sup>6</sup> Participating groups are assumed to be 100% EE funded due to data reporting limitations

It is evident that the COVID-19 pandemic will have an impact on health care costs. We have used available information and reasonable estimation techniques to develop health care cost estimates for the GHIP that reflect the impact of COVID-19. However, due to the high degree of uncertainty associated with this pandemic, results may vary from the estimates provided.

### Health Plan Quarterly Financial Reporting

#### Assumptions and Caveats

---

##### Claim basis and timing

- 1 All reporting provided on a paid basis within this document.
- 2 FY23 represents the time period July 1, 2022 through June 30, 2023 for all statuses; note Medicfill plan for Medicare eligible retirees runs on a calendar year basis. Therefore, FY23 financial results span two plan years for the Medicare eligible population.

##### Enrollment

- 3 Medical and Rx enrollment based on quarterly tiered enrollment data from Highmark and Aetna; Medicare enrollment provided separately for retirees enrolled in medical (Highmark) and Rx (ESI).

##### Benefit costs/fees

- 4 Medical quarterly paid claims from Highmark and Aetna; Rx quarterly paid claims from ESI and CVS; EGWP subsidies and Rx rebates (Active, non-Medicare eligible retiree, and Medicare eligible retiree) from DHR
- 5 Administration fees and operational expenses from DHR-provided September 2022 Fund Equity Report; total quarterly fees are assigned to each plan on a contract count basis.
  - a. ASO Fees: includes fees for vendor administration, COBRA administration, ACA-related (PCORI), IBM Watson data analytics, EAP and WTW consulting fees.
  - b. Operational Expenses: includes expenses for items such as staff salaries, supplies, etc.
- 6 Pharmacy drug rebates are shown based on the period to which rebates are attributable; prior quarters to be updated with actual FY23 rebates when received; estimated rebates reflect projected improvements in Rx rebates based on result of PBM award to CVS Health; active/non-Medicare eligible retiree rebates assigned to each plan on a contract count basis; may differ from actual payments received during FY23 due to payment timing lag.
- 7 EGWP payments based on actual and expected payments attributable to the period July 1, 2022 through June 30, 2023; reflects actual direct subsidy, prospective reinsurance and coverage gap discount payments received through March 2023; remaining payments attributable to FY23 estimated based on projected amounts provided by ESI; may differ from actual payments received during FY23 due to payment timing lag.
- 8 Prior year costs calculated from WTW's FY22 Financial Reporting.
- 9 FY23 Projected based on updated long-term projections through FY23 Q3; reflects experience through April 2023 and projected FY23 average enrollment based on headcounts through March 2023; EGWP revenues and prescription drug rebates projected based on the period revenues are payable; includes estimated improvements in Rx rebates and reduction in pharmacy claims based on result of PBM award to CVS Health; 5% medical/8% pharmacy trend; assumes 1% enrollment growth

**It is evident that the COVID-19 pandemic will have an impact on health care costs. We have used available information and reasonable estimation techniques to develop health care cost estimates for the GHIP that reflect the impact of COVID-19. However due to the high degree of uncertainty associated with this pandemic, results may vary from the estimates provided.**

##### Budget/contributions

- 10 Active and non-Medicare eligible retiree budget rates and contributions reflect rates effective July 1, 2022. Medicare eligible retiree budget rates reflect rates effective January 1, 2022 for FY23 Q1 and Q2, and rates effective January 1, 2023 for FY23 Q3 and Q4. Budget rates include FY23 risk fees for Participating groups (excludes \$2.70 PEPM charge).
- 11 Premiums and employee contributions are the product of monthly budget rate/contribution and quarterly average tiered contract counts provided by the medical vendors; assumes 1% enrollment growth during FY23.
- 12 Highmark quarterly reports do not provide enrollment data split by retirement date. Medicfill contributions are estimated based on reporting provided by DHR
- 13 Participating groups are assumed to be 100% employee paid in order to estimate the healthcare program's net cost to the State; actual employee contributions vary and are difficult to capture since each group pays premiums at different times; participating group fees are included in premium contributions.
- 14 While COBRA enrollment and claims are reflected in the expenses, all medical/Rx participants are assumed to pay active contributions since COBRA participants make up less than 0.1% of the total population.
- 15 HRA funding for CDH plans are included in the paid claims reported in this document.

Terminology	Acronym	Definition
Administrative Services Only	ASO	When an organization funds its own employee benefit plan, such as a health insurance program, and it hires an outside firm to perform specific administrative services. Also referred to as "self-funded". Currently, the GHIP has ASO contracts with Aetna, Highmark and Express Scripts.
Capitation	n/a	Fixed payment amount (per member) to a physician or group of physicians for a defined set of services for a defined set of members. Fixed or "capitated" payment per member provides physician with an incentive for meeting quality and cost efficiency outcomes, since the physician is responsible for any costs incurred above the capitated amount. May be risk adjusted based on the demographics of the member population or changes in the member population. Often used for <i>bundled payments</i> or other <i>value-based payments</i> .
Consumer Driven Health Plan	CDHP	Allows members to use health savings accounts (HSA), health reimbursement accounts ( <i>HRA</i> ), or other similar medical payment products to pay routine health care expenses directly. GHIP currently offers a CDHP with <i>HRA</i> .
Coverage Gap Discount Program	CGDP	One of the funding components of an <i>EGWP</i> . Manufacturers provide discounts on covered Part D brand prescription drugs to Medicare beneficiaries while in the coverage gap.
Employee	EE	A person employed for wages or salary.
Employer Group Waiver Plans	EGWP	A Center for Medicare Service (CMS) approved program for both employers and unions. An employer may contract directly with CMS or go through an approved TPA, such as ESI, to establish the plan. They are usually Self Funded, are integrated with Medicare Part D, and sometimes include a fully insured "wrapper" around the plan to cover non-Medicare Part D prescription drugs. GHIP currently contracts with ESI as the TPA and includes a "wrapper," which is referred to as an enhanced benefit.
Fiscal Year	FY	A year as reckoned for taxing or accounting purposes. GHIP fiscal year runs from July 1st through June 30th.
Health Maintenance Organization	HMO	A form of health insurance combining a range of coverages in a group basis. A group of doctors and other medical professionals offer care through the HMO for a flat monthly rate. However, only visits to professionals within the HMO network are covered by the policy. All visits, prescriptions and other care must be cleared by the HMO in order to be covered. A primary physician within the HMO handles referrals.
Health Reimbursement Account	HRA	Employer-funded account that reimburses employees for out-of-pocket medical expenses. Employees can choose how to use their HRA funds to pay for medical expenses, but the employer can determine what expenses are reimbursable by the HRA (e.g., employers often designate prescription drug expenses as ineligible for reimbursement by an HRA). Funds are owned by the employer and are tax-deductible to the employee. GHIP only offers HRA to employees and non-Medicare eligible retirees who enroll in the CDH Gold plan.
High Cost Claimant	HCC	An insured who incurs claims over a catastrophic claim limit during the plan year. For purposes of cost tracking, this threshold is \$100K.
Per Employee Per Month	PEPM	A monthly cost basis measured on an employee/contract/subscriber level
Per Employee Per Year	PEPY	A yearly cost basis measured on an employee/contract/subscriber level
Per Member Per Month	PMPM	A monthly cost basis measured on a member level
Per Member Per Year	PMPY	A yearly cost basis measured on a member level
Patient-Centered Outcomes Research Trust Fund Fee	PCORI	The Patient-Centered Outcomes Research Trust Fund fee is a fee on plan sponsors of self-insured health plans that helps to fund the Patient-Centered Outcomes Research Institute (PCORI). The institute will assist, through research, patients, clinicians, purchasers and policy-makers, in making informed health decisions by advancing the quality and relevance of evidence-based medicine. The institute will compile and distribute comparative clinical effectiveness research findings. This fee is part of the Affordable Care Act legislation.

#### Glossary of Important Health Care Terms

---

#### Terms directly tied to cost tracking

Terminology	Acronym	Definition
Point-of-Service	POS	A type of managed care plan that is a hybrid of HMO and PPO plans. Like an HMO, participants designate an in-network physician to be their primary care provider. But like a PPO, patients may go outside of the provider network for health care services. GHIP only offers this type of plan to Port of Wilmington employees.
Preferred Provider Organization	PPO	A health care organization composed of physicians, hospitals, or other providers which provides health care services at a reduced fee. A PPO is similar to an HMO, but care is paid for as it is received instead of in advance in the form of a scheduled fee. PPOs may also offer more flexibility by allowing for visits to out-of-network professionals at a greater expense to the policy holder. Visits within the network require only the payment of a small fee. There is often a deductible for out-of-network expenses and a higher co-payment.
Transitional Reinsurance Fee	TRF	Fee collected by the transitional reinsurance program to fund reinsurance payments to issuers of non-grandfathered reinsurance-eligible individual market plans, the administrative costs of operating the reinsurance program, and the General Fund of the U.S. Treasury for the 2014, 2015, and 2016 benefit years. This fee is part of the Affordable Care Act legislation, and ends after the 2016 benefit year.
Year to Date	YTD	A period, starting from the beginning of the current year (either the calendar year or fiscal year) and continuing up to the present day. For this financial reporting document, YTD refers to the time period of July 1, 2022 to March 31, 2023.
