UNDERSTANDING THE FINANCES OF DELAWARE EMPLOYEE & RETIREE HEALTHCARE BENEFITS March 22, 2023

PRESENTATION OF FOUR STATE RETIREES:

Robert J. Clarkin (Retired State Employee)

Steven LePage (Retired State Employee, USAF Veteran)

Karen E. Peterson (Retired State Employee, Retired State Senator)

Mary B. Graham (Presenter, Spouse of Retired UD Professor)

v. 32223 1019

WHAT WE DID

- **Goal**: To understand the financial circumstances surrounding change of healthcare benefit for State Medicare retirees to Medicare Advantage and to look ahead at options.
 - Researched financial and analytical reports, presentations, minutes of meetings, etc. we could find on State websites about State healthcare benefit and finances, including OPEB
 - **Analyzed** over many months lots of that data for example, to parse data into the groups on State healthcare benefit
 - **Compared** our analyses to what has been said by the State about financial circumstances allegedly warranting Medicare Advantage
- This presentation is intended to offer basic factual background, some "fact checks" and suggestions for the RHBAS proceeding forward

SOME BACKGROUND ON DELAWARE HEALTHCARE BENEFIT

- Delaware's health insurance plan called "GHIP" (Group Health Insurance Plan)
- Covers **three groups**: (a) active employees, (b) pre-Medicare retirees (*or* "non-Medicare retirees") and (c) Medicare retirees (Note certain employees and retirees of "affiliated" groups participate)
- Delaware's GHIP is "**self-funded**" i.e. Delaware itself pays out for medical and prescription (Rx) costs (claims) of participants
- Delaware uses "third party administrators" (Highmark and Aetna) to administer Delaware's self-funded insurance plan. Not acting as insurers for any of the three groups.

BASICS: WHO PAYS FOR STATE EMPLOYEE/RETIREE HEALTHCARE?

- For Actives and Non-Medicare Retirees *State of Delaware* writes the checks for all medical and Rx claims (self-funded insurance) from monies in its Health Fund.
- For Medicare Retirees:
 - Federal Medicare Trust Fund pays 80% of medical claims, leaving State to write checks for only remaining 20% out of State Health Fund.
 - Federal Medicare paid approx 60% of Rx claims in FY2022 leaving State to pay only remaining 40%.
 - Very important but often forgotten in public discourse!
- Participants pay certain amounts ("Premiums") to the State and the State itself uses its monies to pay a share of "Premiums" NOTE: Medicare Retirees pay significant premiums to Medicare for their Medicare benefit

Federal/State Cost Share of the Real Medical Claims

BASICS: WHAT MATTERS FOR DELAWARE'S HEALTHCARE FINANCES?

Delaware's two concerns:

- Annual budget yearly costs of healthcare and yearly revenue (including premiums)
- Long-term liability for promised retiree healthcare (so-called OPEB* liability)

Like bank credit card holder's two concerns: immediate monthly/yearly payments and total balance due into the future.

Important to keep in mind the difference to avoid confusion.

^{*}OPEB stands for "Other Post-Employment Benefits" meaning other than pensions. Healthcare only one relevant here.

YEARLY BUDGET CONCERNS: WHAT IS THE "CLAIMS" EXPERIENCE FOR EACH OF THE THREE GROUPS? WHO HAS A SURPLUS OR DEFICIT?

- The following two slides give pie charts showing Claims experience in FY2022 (the most recent full year of data available to us from WTW) broken out by the three groups. (This is after Medicare.)
- The full underlying Claims data can be found at the SEBC website, meeting materials for August 2022 meeting, WTW Quarterly Financial Reporting – FY22 Q4 Cost Analysis https://dhr.delaware.gov/benefits/sebc/documents/2022/0822-financial-reporting.pdf

FACT CHECK: DO ACTIVE EMPLOYEES SUBSIDIZE HEALTHCARE COSTS OF MEDICARE RETIREES?

ANSWER: NO!

Subsidy: Financial assistance given by one person or government to another.

Do active employees give financial assistance to State Medicare retirees? NO. As shown in following slides:

• Active employees do not even come close to paying their own costs. So they cannot possibly "subsidize" others through financial assistance.

Does anyone "subsidize" the three employee groups?

- For all three, the State as promised benefit. No "freeloading."
- For Medicare Retirees the Medicare Trust Fund to tune of 80% of Medical and 60% of Rx. But Retirees paid from their own paychecks into that Fund over decades. And Medicare retirees now pay substantial premiums to Medicare of \$165/mo or more in 2023 for Part B (doctors/outpatient treatment & diagnostics). Again, a promised benefit and no "freeloading."

DEMYSTIFYING OPEB - 1

- OPEB Other Post Employment Benefits. Only type relevant here is promised Healthcare in retirement
- Accounting rule changes some 15 years ago have required State to record liabilities for OPEB
- In other words, record what is owed into the future for retirees' healthcare (sum of cost of healthcare for: (a) current Medicare retirees until death; (b) current non-Medicare retirees until death; and (c) active employees from retirement until death)
- If you have a credit card, you can understand OPEB. Credit card debt ("balance")
 are you paying it down or letting it grow from just "minimum payments"?

DEMYSTIFYING OPEB - 2

- General understanding of what impacts calculation of OPEB liability is helpful:

 (a) projections of cost into the future going up or down; (b) revenue to OPEB fund going up or down: and (c) what interest rate applies. Bootstrapping effect the more you fund OPEB, the better the interest rate used. Like credit card better rates for less risky borrowers.
- Consultant PFM identified "main OPEB 'cost drivers' healthcare inflation, higher-cost pre-Medicare retirees, all retirees living longer" (9/26/2019 RBSC Minutes p. 3)
- Why care about OPEB liability? Bonding agencies care how much is "funded" of the liability and how much "unfunded." As PFM says, "fully funding" is "not legally required," but accounting standards require State to report its full liabilities.
- How calculate OPEB liability? See consultant reports presented to RBSC (PFM Consulting 9/26/2019 and Cheiron 11/12/2019 at "archived" RBSC webpage).

DEMYSTIFYING OPEB - 3: BOND RATING AGENCIES

OPEB concern barely addressed for 15 years. "Crisis" now?

- Bond rating agencies did *not* suggest crisis. Painted overall positive picture:
 - Moody's: Delaware "maintains a strong credit position supported by healthy and stable finances, and strong management and governance." "Delaware's finances remain in strong shape."
- "Factors that could lead to a downgrade ... *Growth* in long-term liabilities that *outpaces expansion* of the state's economy."
- Consultant PFM confirmed "ratings agencies are looking for a plan. They recognize that this is a problem/challenge that has emerged over many years with many dimensions and they are not looking for an overnight solution, but a plan for a meaningful and sustainable approach." (RBSC Minutes 9/26/19)
- "Need to demonstrate progress to the rating agencies that the State is on the right path towards funding the OPEB." (RBSC Minutes 10/25/21)

WHAT HAS THE STATE FUNDING OF OPEB LOOKED LIKE?

- Delaware provides monies towards:
- (a) operating costs portion of OPEB Trust Fund (mainly cost of retiree healthcare, both pre-Medicare and active employees) (amount = 8.55% x payroll); and
- (b) equity (or fiduciary) portion of OPEB Trust Fund (amount = .36 x payroll amount; new FY2023 1% budget carveout). *See* Budget Bill HB75.
- The State's expressed biggest concern has been over (b). For FY2023, and recommended for FY2024, the equity portion has increased substantially. See next two slides.

RBSC WORKED TO ADDRESS ISSUE OF UNFUNDED OPEB LIABILITY

- Background RBSC started working in Fall 2019. Did lots of work over two years. Two reports: Initial Report 11/1/2021 (before SEBC adopted Medicare Advantage on 2/28/22); and Report March 22, 2021 (after SEBC adopted MA).
- Disappeared this year after RHBAS was created (was supposed to issue third report March 2023).
- The good news is that the RBSC has done most of the work you likely need AND points this committee in a reasonable direction.
- Before getting to the gold mine of RBSC data, let's look at what RBSC did NOT recommend.

RBSC: CONSIDERATION OF OPTIONS WHAT DID RBSC SUPPOSEDLY RECOMMEND?

- Supposedly, RBSC recommended Medicare Advantage (MA) to SEBC to address OPEB.
- For example, Minutes of RBSC from morning of 2/28/22 same day SEBC adopted Medicare Advantage: "Secretary Geisenberger stated that the November 2021 RBSC report included a recommendation to transition coverage for Medicare eligible retirees from the current Medicare Supplement to an employer-sponsored Medicare Advantage plan or to an indexed employer subsidy funded through a Health Reimbursement Account (HRA) for purchasing Medicare coverage on the individual marketplace."

RBSC: CONSIDERATION OF OPTIONS FACT CHECK: DID RBSC ACTUALLY RECOMMEND MA?

NO: RBSC DID NOT RECOMMEND MA!

• RBSC November 1, 2021 Report as to MA actually recommended: "Continue reviewing ... Transitioning coverage of Medicare-eligible retirees from the Medicare Supplement to an employer-sponsored Medicare Advantage plan or to an [HRA giving choice]." The March 2022 Report treated MA as a fait accompli.

WHAT ELSE DID RBSC RECOMMEND?

- Continuing review of 4 options for changes to eligibility: spousal share, years of service (YOS), minimum retirement age, and elimination of benefits for terminated vested employees. (Note only first three result in significant impact for OPEB liability as slides will show)
- RBSC **DID RECOMMEND** "substantial increase in recurring funding" by budget carveout for OPEB trust fund. **This has occurred saw in earlier slide with 1%** carveout.

ELIGIBILITY CHANGES CONSIDERED BY RBSC: for potential implementation January 1, 2024 (RBSC 11/1/2021 Report)

- 1. Reduce the State share/subsidy for spouses of retirees from 100% to 50% for future retirees after a certain effective date, for those that have not reached retirement eligibility status.
- **2. Modify the eligibility [YOS] schedule for State share/ subsidy** for those hired since 1/2007 to 20 years of service = 50%, 25 years = 75% and 30 years = 100%, after a certain effective date.
- 3. Establish a minimum age to enroll on the retiree medical plan of 60 for State Employees and 55 for employees subject to a mandatory retirement age, providing a deferred benefit for those that retire prior to the minimum. This would apply after a certain effective date, for those that have not reached retirement eligibility status.
- 4. [MINIMAL IMPACT ON OPEB] Eliminate the ability to access retiree medical benefits for vested employees that terminate their State service without filing with the Pension Office for retirement. This would apply to employees that terminate after a certain effective date, and require employees in the future to retire from State service in order to receive the retiree medical benefit.

CONCLUSION FROM RBSC SLIDES AS TO IMPACT ON OPEB UNFUNDED LIABILITY OF ELIGIBILITY CHANGES RBSC CONSIDERED AND MA

- Three main *benefit eligibility changes* each show *GREATER* impact on OPEB liability than Medicare Advantage (MA): spousal share, YOS, and minimum retirement age. *Prior slide column "accrued liabilities."*
- And RBSC data shows MA not sufficient to address OPEB in major way.
- RBSC never found adoption of MA was necessary to address concerns about OPEB liability.

MINUTES OF RBSC 11/29/21 Meeting

MINUTES RECORD SECRETARY GEISENBERGER'S CONCLUSIONS ABOUT HEALTHCARE REFORM (without Medicare Advantage) AS IMPACTS OPEB:

"IV. Updated Reform Estimates

Secretary Geisenberger presented the slides regarding "Updated Funding and Benefit Options" (slides numbered 5 through 7). The table shown on slide 6 [see slide 27 of this deck] represents what the valuations would be 30 years from now doing these different funding and benefit options. What we have determined over the last several meetings is that if we looked at additional funding of a 1% carveout against the Budget Benchmark of the prior year, set aside each year for the OPEB Trust Fund, and applied this over the 30 years, OPEB would be 51% funded. If all of the funding, benefit and eligibility design changes were adopted (a scenario unlikely to occur), not only would we solve the problem of a severely underfunded OPEB Liability, but it would be pretty much resolved "overnight".

(emphasis added) Note: Slide 6 did NOT include Medicare Advantage.

SUGGESTIONS FOR RHBAS TO PROCEED FORWARD

- RBSC (Retirements Benefits Study Committee) established September 2019. Charged with studying options for reducing OPEB liability.
- Extensively studied options over two-year period. https://finance.delaware.gov/financial-reports/committee-reports/retirement-benefit-study-committee/
- RBSC found that eligibility changes, with enhanced funding, would reduce OPEB liability significantly.
 (11/29/21 RBSC Slide 6 see slide 27 above) No reason to go back over same ground. Those changes could be done gradually.
- Nothing in RBSC record supports going to Medicare Advantage neither necessary nor sufficient to make meaningful progress on OPEB liability.
- MA was just a seemingly quick and easy step, pushed by insurance company standing to profit enormously and that never pointed out devastating consequences for retiree healthcare.
- The RHBAS can finalize the already examined RBSC options it can advise the Governor and the Legislature to continue with the 1% enhanced funding, and either increase it further or follow a path of gradual changes to eligibility (spousal share, YOS, and minimum retirement age). Or do both. The RHBAS should consider putting the OPEB fund on same solid footing as the Pension Fund, which has been a model.

^{1.} Plan fully covers medical out-of-pocket costs not covered by Medicare Part B, other than the Part B premium

^{2.} Prescription drug copays and 5% premium cost share applies for pensioners retiring on or after 7/1/2012; State share is 100% for pensioners retiring before 7/1/2012; State pays 100% of State Share for pensioners with 20+ years of service

^{3.} Catastrophic Coverage: After yearly out-of-pocket drug costs reach \$7,050, retirees pay the greater of 5% coinsurance or from \$3.95 to \$9.85 copayment per script based on drug tier

^{4.} Assumes no change in rates effective 7/1/2022; Medicfill rates represent funding revenue only; actual cost of Medicfill program differs from the current funding rates

Medicare Advantage and Out-of-State Network Issues

My name is Rebecca Scarborough. Both my late husband and I retired from the State with full benefits. We were both proud to be public servants and also thankful for the benefits packages we earned in doing so. I, like most of my fellow state pensioners, want to keep these benefits and while we have become well aware of the financial challenge of healthcare's increasing costs, want to help with the potential solution, most of which have had significant study by the former Retirement Benefits Study Committee. But the fact that the SEBC seemingly prematurely chose only one plan that only impacted Medicare Eligible retirees seems unfair, especially given the many pitfalls of the proposed Medicare Advantage plan. I shall not enumerate here the research and investigative reporting that MA, with its more limited provider networks, may leave patients on the hook for higher costs by using an out-of- network provider or hospital. Nor shall I mention another worrisome concern that MA patients are less likely to receive medical care at the highest rated facilities. Nor shall I dwell on the examples of fraudulent billing by some of the largest MA insurers nor how such privatized plans seem to be perpetuating traditional Medicare's solvency crisis. And then, of course, there is the major problem of over 2,000 prior authorizations necessary for some of the most basic services. Nearly 7,000 Delaware retirees live out of state. This figure does not include those who live part of each year elsewhere. One out-of-state pensioner was notified this past September that the Mayo Clinic in Jacksonville. Florida would no longer schedule appointments for patients with out-of-network Medicare Advantage Plans. Delaware's plan is out-of-network. This same retiree also goes to Johns Hopkins for another condition. Their website states: "Please be advised that Johns Hopkins Medicine hospitals and most Johns Hopkins University physicians participate with Medicare, but we are not contracted with most Medicare Advantage Plans." This is just one example of a pensioner living out of state or seeking medical treatment at out-of-state facilities – like Penn, Jefferson, Temple, Sloan-Kettering Think of the issues that such retirees will be faced with if the State switches to a Medicare Advantage plan! Folks! Delaware needs to get this right without throwing it on the backs of Medicare eligible retirees!

Medicare Advantage and Out-of-State Network Issues

My name is Rebecca Scarborough. Both my late husband and I retired from the State with full benefits - I, a former high school Latin and English teacher and later a Department of Education World Languages Associate; he, a DelDOT Road Design engineer. We were both proud to be public servants and also thankful for the benefits packages we earned in doing so.

I, like most of my fellow state pensioners, want to keep these benefits and while we have become well aware of the financial crisis of healthcare's increasing costs, want to help with the potential solution, most of which have had significant study by the former Retirement Benefits Study Committee. But the fact that the SEBC seemingly prematurely chose only one plan that only impacted Medicare Eligible retirees seems unfair, especially given the many pitfalls of the proposed Medicare Advantage plan.

I shall not enumerate here the research and investigative reporting that MA, with its more limited provider networks, may leave patients on the hook for higher costs by using an out-of- network provider or hospital.

Nor shall I mention another worrisome concern that MA patients are less likely to receive medical care at the highest rated facilities.

Nor shall I dwell on the examples of fraudulent billing by some of the largest MA insurers nor how such privatized plans seem to be perpetuating traditional Medicare's solvency crisis.

And then, of course, there is the major problem of thousands of prior authorizations necessary for some of the most basic services and medical interventions!

However, I shall address an example of one out-of-state pensioner who would have been denied the services of a previously used and prestigious hospital — the Mayo Clinic in Jacksonville Florida. This is the letter a DelDOT retiree received in early September, 2022:

Dear Andy Martinez:

At Mayo Clinic, our patients are at the center of everything we do, and your trust is very important to us. Sharing information is one way to help ensure we continue to be trusted partners for your health care needs.

As you may be aware, beginning in mid-October, it will be time to select health care coverage for 2023. Mayo Clinic in Florida is not in-network with most Medicare Advantage Plans. We want to be sure that you are aware that Mayo Clinic in Florida will not schedule appointments for patients with out-of-network Medicare Advantage Plans.

Many patients are making elections for their coverage in 2023, including Medicare. Marketing for Medicare Advantage Plans may indicate that you can be seen at any facility that accepts Medicare, however Mayo Clinic in Florida is out of network on these plans. X

Medicare Advantage Plans are managed by commercial insurance companies on behalf of Medicare and offer a specific network of contracted medical providers and hospitals, which may not include Mayo Clinic in Florida. These plans are required to have a substantial network of qualified providers to accommodate their members' medical needs.

As you consider your options for health coverage, you can confirm Mayo Clinic's participation by providing the insurance plan under consideration the Tax ID information below:

- Mayo Clinic Florida Hospital 59-0714831
- Mayo Clinic Florida Outpatient Clinic Services 59-3337028

We do accept Original Medicare (Parts A and B), and supplement plans, sometimes referred to as Traditional Medicare. If you choose to enroll in a Medicare Advantage Plan, we can provide your medical records to the next in-network facility you select for your care.

Learn more about your Medicare options <u>online</u>, or by calling Medicare (1-800-MEDICARE) or a State Health Insurance Assistance Program (locate a local resource by calling 877-839-2675), Mayo Clinic is not authorized to assist with Medicare enrollment decisions.

Please continue to update Mayo Clinic on any changes to your health care coverage.

Sincerely,

Mayo Clinic in Florida Leadership

I know the Benefits Office is working overtime and I received notification of the letter's receipt on a Sunday. However, in spite of their attempts to come up with a resolution to the problem, this retiree was told that in speaking with the Highmark BCBS Delaware's contracting team, it was confirmed that the Mayo Clinic in Jacksonville is not contracted in-network and that the local BCBS has left Mayo Clinic with the decision of accepting patients individually or not when they have a Medicare Advantage plan with out-of-network benefits. The offer was then made to this Florida resident to connect with a member of Delaware's Highmark Concierge team to discuss options.

This same retiree also goes to Johns Hopkins for another condition and below is a paragraph from that institution's billing information:

Medicare Coverage

Please be advised that Johns Hopkins Medicine hospitals and most Johns Hopkins University physicians participate with Medicare, but we are **not** contracted with most Medicare Advantage Plans. If your Johns Hopkins Medicine hospital doesn't participate with a Medicare Advantage Plan, you can use out-of-network benefits if your plan has them.

This is just one example of a pensioner living out of state. Think of the issues that such retirees are faced with if the State switches to a Medicare Advantage plan!

The latest information that I have states that 79% of retirees enrolled or eligible to enroll in benefits live in Delaware (25,365). 6,670 reside out of state. This figure does not include those who live part of each year elsewhere or travel broadly in their retirement years. I was struck by the comments at a recent SEBC meeting of a retired University of Delaware chemical engineer who is temporarily residing in Ohio to take care of her ill mother, who is on a different MA plan that would not work in Delaware should she be moved here. Her poignant plea was, "Don't make us abandon our parents!"

Folks! Delaware needs to get this right and employ several proposed solutions to this liability rather than throwing it on the backs of Medicare eligible retirees!

Of the many "WHEREAS" in SB 29, two stand out as the most significant;

protecting the health and wellness of Delaware's senior citizens and dealing with the unfunded liability.

It is a well-known fact that the US health care system, and specifically Delaware's cost, is well over double the cost of any other health care system in the world. The need to reduce costs is urgent. But the issue before you is not just the reduction of an unfunded liability; indeed, if this were the objective, you already have the solution, but the genuine concern is about pensioners' health, which the state shares responsibility for ensuring. Pensioners have had a long-standing Medicare plan that allowed choice without preauthorization. As I have said so many times before, Medicare Advantage plans have done nothing more than increase their profits, and Delaware should not use pensioners as profit pawns for their continued effort. This subcommittee can adopt a more balanced approach by recommending options.

But first, as we have just heard, several questions regarding the actual cost must be answered to understand what options will be viable. I encourage you to get the needed independent help to answer the question of cost. Do not settle for unanswered questions; know why.

Secondly, there are alternatives, as Mary Graham has stated regarding tax payer budget, eligibility and design. I encourage you to do what is best for those who serviced the state as well as those of the state. Thank you.

Subject: Comments for the Retiree Healthcare Benefits Advisory Subcommittee

After living with agonizing pain for over 30 years – the pain and debility caused by a rare vascular disease, which took away from me *everything* we associate with "having a life" – I was finally authorized 8 years ago to begin treatment with the monoclonal antibody Humira, which is quite expensive. It literally gave me back my life and health. Instead of living in bed, battling pneumonia after pneumonia, now I exercise, read, walk, knit, and travel. I am a grandmother of two and can be a lively presence in their lives. What pain remains is entirely controllable. It is nothing short of miraculous! It has transformed my entire world.

That medication, and many, many others that contribute to making my life livable, healthy, and rewarding could, if my Medicare Supplement is privatized, be subject to the whims of a company whose primary goal is to cut costs to ensure they remain profitable. If their decisions are unfavorable regarding the treatment regimen I am on, due to cost, or to other treatments my doctors may deem necessary in the future, it would quite literally destroy me. If the company even simply forced me to get preauthorizations for dozens of medications or for the regular imaging and other tests necessary to protect my health, it would add an unbearable amount of stress to my life – and stress reliably triggers flare ups –and would consume an absurd amount of the already limited time I have each day. I don't trust a company with a profit motive to assure my continued good health because it is expensive to do so.

Please don't victimize the senior citizens who have grown old with the assurance of a reliable Medicare Supplement by selling our health care to a company the justice department has already charged with defrauding the government. Collectively, the companies who have spent untold millions on advertising their Medicare Advantage plans, have defrauded the government by \$12.5 billion already*. These are not people to be trusted.

DELAWARE RETIREE HEALTHCARE BENEFITS ADVISORY SUBCOMMITTEE COMMMENTS OF ROGER L. JONES MARCH 22, 2023

THANK YOU FOR THE OPPORTUNITY TO COMMENT ON THE DELAWARE STATE RETIREE HEALTH CARE PLAN AND PROPOSED MEDICARE ADVANTAGE PLAN. MY NAME IS ROGER L. JONES. I AM THE SPOUSE OF A LONG SERVING SPECIAL EDUCATION TEACHER IN THE COLONIAL SCHOOL DISTRICT.

I URGE MEMBERS OF THE SUBCOMMITTEE TO RECOMMEND RETAINING THE CURRENT STATE MEDICFILL PLAN AS AN OPTION FOR MEDICARE RETIREES.

THE SIMPLE FACT IS THAT THE PROPOSED HIGHMARK MEDICARE ADVANTAGE PLAN IS INFERIOR TO TRADITIONAL MEDICARE SUPPLEMENT PLANS, INCLUDING DELAWARE'S MEDICFILL PLAN. ADVANTAGE PLANS PLACE TOO MUCH MEDICAL DECISION-MAKING IN THE HANDS OF INSURANCE COMPANIES AND EXPOSES RETIREES TO GREATER RISK OF UNCOVERED AND POSSIBLE CATASTROPHIC HEALTH CARE EXPENSES IN THEIR LATER YEARS.

WHEN YOU BOIL THINGS DOWN, HERE IS THE TRADEOFF I SEE WITH THE ADMINISTRATIONS PROPOSED PLAN TO CHANGE RETIREE HEALTH CARE COVERAGE. DELAWARE STATE RETIREES WILL BE FORCED TO GIVE UP HEALTH CARE GUARANTEES AFFORDED BY THE FEDERAL MEDICARE PROGRAM. CHANGING TO A MEDICARE ADVANTAGE PLAN WILL REDUCE PROVIDER COVERAGE, REDUCE MEDICAL BENEFITS AND OVER THE LONG TERM LIKELY INCREASE OUT OF POCKET COST TO STATE RETIREES. AND, ACCCORDING TO ALMOST EVERY INDEPENDENT STUDY CONDUCTED TO DATE, THE PROPOSED CHANGE TO A MEDICARE ADVANTAGE PLAN WILL INCREASE PROFIT MARGINS OF THE SELECTED HEALTH CARE INSURANCE COMPANY.

IN CLOSING, I URGE MEMBERS OF THE ADVISORY SUB COMMITTEE TO CONTINUE THE DELAWARE STATE RETIREE MEDICFILL PLAN. THERE ARE OTHER WAYS TO ADDRESS PROJECTED HEALTH CARE PLAN BUDGET SHORTFALLS. PROMISES MADE SHOULD BE PROMISES KEPT, THAT'S THE DELAWARE WAY.

SINCERELY,

ROGER L. JONES 103 CAMERON DRIVE HOCKESSIN, DE 19707
