

SEBC Policy Planning & Financial Subcommittees

The State Employee Benefits Committee (SEBC) was formed as a result of legislation introduced and passed by the General Assembly and signed by the Governor. The SEBC has control and management of all employee benefit coverage including health care insurance, group life insurance; and all other currently existing and future employee benefit coverage, including but not limited to all forms of flexible and supplemental benefits, dental, vision, prescription and disability coverage.

The SEBC approved at its September 24, 2018 meeting, the creation of a (i) Financial Subcommittee to advise the SEBC on financial matters; and (ii) Health Policy & Planning Subcommittee to advise the SEBC on health policy and planning matters. Detailed information on this Resolution can found on the SEBC website under the Subcommittee section.

To represent all facets of state government and the employee population, the Subcommittee is composed of members of various State agencies as well as elected officials. Members of the Subcommittees shall be appointed by the Co-Chairs of the SEBC from the persons nominated by the SEBC members.

The names and contact information for the current members on these two subcommittees can be found on the document entitled SEBC Subcommittee members on this website.
