**Certification for Serious Injury or Illness of a Veteran for
Military Caregiver Leave (Family and Medical Leave Act)**

Policy #: To be assigned.
Rev. Date:

A complete and sufficient certification to support a request for FMLA military caregiver leave due to a covered veteran's serious injury or illness includes written documentation confirming that the veteran's injury or illness was incurred in the line of duty on active duty or existed before the beginning of the veteran's active duty and was aggravated by service in the line of duty on active duty, and that the veteran is undergoing treatment, recuperation, or therapy for such injury or illness by a health care provider listed above. Answer fully and completely all applicable parts. Several questions seek a response as to the frequency or duration of a condition, treatment, etc. Your answer should be your best estimate based upon your medical knowledge, experience, and examination of the patient. Be as specific as you can; terms such as "lifetime," "unknown," or "indeterminate" may not be sufficient to determine FMLA military caregiver leave coverage. Limit your responses to the veteran's condition for which the employee is seeking leave. Do not provide information about genetic tests, as defined in 29 C.F.R. § 1635.3(f), or genetic services, as defined in 29 C.F.R. § 1635.3(e).

(Please ensure that Section I has been completed before completing this section. Please be sure to sign the form on the last page and return this form to the employee requesting leave (See Section I, Part A above). **DO NOT SEND THE COMPLETED FORM TO THE WAGE AND HOUR DIVISION.**)
